Chapter 1. Adding

What is addition?

Addition is a mathematical operation.

Addition allows you to find the sum of two numbers. In the addition process, we add one number to another and the sum is the result.

The plus (+) button expresses the addition operation in the app.

How to add

Use the calculator to add.

To successfully add, you must understand addition.

1. Enter the first number.
2. Choose the plus (+) button.
3. Enter the second number.
4. Choose the equal (=) button.

The calculator displays the result.

You want to add 2 to 3. The equation will be $3+2=5$. Enter 3. Press plus. Enter 2. Press equal. The calculator displays the number 5.

Chapter 2. Subtracting

What is subtraction?

Subtraction is a mathematical operation.

Subtraction is a mathematical operation. Subtraction allows you to find the difference of two numbers. In the subtraction process, we take away one number from another and the remainder is the result.

The minus (-) button expresses the subtraction operation in the app.

How to subtract

Use the calculator to subtract.

To successfully subtract, you must understand subtraction.

1. Enter the first number.
2. Choose the minus (-) button.
3. Enter the second number.
4. Choose the equal (=) button.

The calculator displays the result.

You want to subtract 2 from 3. The equation will be $3-2=1$. Enter 3. Press minus. Enter 2. Press equal. The calculator displays the number 1.

Chapter 3. Multiplying

Chapter 4. Dividing
